## SOCIAL INNOVATION FOR RESILIENT COMMUNITIES

### Supporting social entrepreneurs on their journey towards resilience

*Closing event of the Erasmus+ SIRClé project*

**Thursday 29 June 2017**

Trèves Building, 7th floor, 74 rue de Trèves, 1040 Brussels (Room TRE 7701)

*The Social Innovation for Resilient Communities project (SIRClé – [www.sircle-project.eu](http://www.sircle-project.eu)) uses adult education and a training curriculum known as *The Evoneers' Journey*, to address one of the most pressing needs of our time, namely to combine our commitment to the wellbeing of the planet and to a more sustainable society with our ability to be financially sustainable. The training curriculum supports social entrepreneurs in their journey towards owning and developing their ideas and projects towards a more sustainable future.*

*The SIRClé Project was born in a close collaboration between the Global Ecovillage Network (GEN) and the Findhorn Foundation (FF) and brings together a diverse range of organisations from Austria (Plenum), Belgium (AEIDL and Still Consulting), Romania (Asociatia Romania in Transizie), Spain (Altekio) and Portugal (FFCUL). This event aims to showcase the achievements of the project, share participants' experiences with the methodology with a broader audience and engage in a dialogue with European policy makers. It also offers the possibility for a hands-on experiential session around the Journey for aspiring or established social entrepreneurs. This event is organised with the support of the European Commission and the European Economic and Social Committee (EESC) following the European Day on Social Economy Enterprises, held on 28th June.*
